

Bruce Wayne is Becoming Batman When 'Gotham' Returns

09.12.2017

Three months ago The Penguin took control of the underworld, and The Scarecrow is coming.

Fox's promo for season four of Gotham further establishes its villains as a young Bruce Wayne (David Mazouz) takes the first steps in his journey of becoming Batman.

"I can make a difference in Gotham," the soon-to-be Caped Crusader says in the minute-long spot.

"It's dangerous," Alfred (Sean Pertwee) warns.

Gotham moves to Thursday nights and premieres September 21 on Fox.
